

Shade Measurements

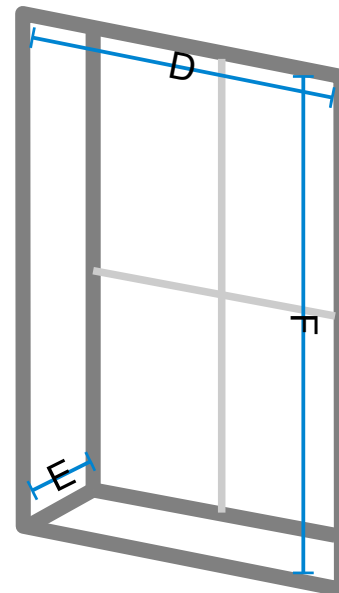

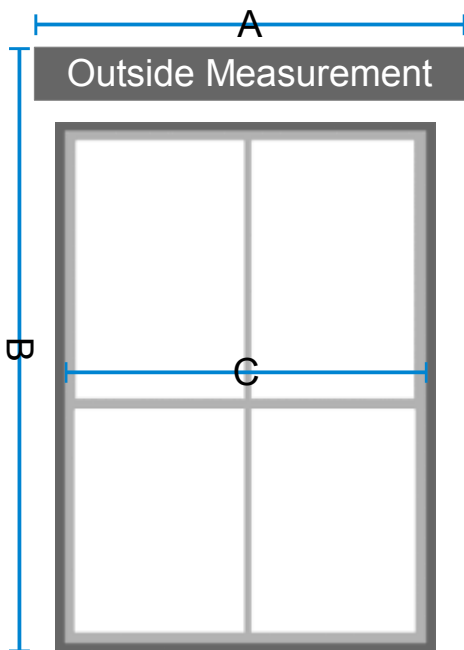

Roller Blind

Date

Project

Name

A	Outside Measurement (Bracket to Bracket)	<input type="text"/>
B	Shade Height	<input type="text"/>
C	Total Width	<input type="text"/>
D	Inside Mount (Bracket to Bracket)	<input type="text"/>
E	Jamb Depth	<input type="text"/>
F	Inner Height	<input type="text"/>

Instructions

- Inspect the window for obstructions and sketch them on the back of this sheet
- Decide on how the blind is to be mounted and fill out the measurements. A, B and C are for outside mount, D, E and F are for inside mount.
- Regular roll, fabric falls off the back of the roller. Reverse roll, fabric fall off of the front.
